

The Compound is an internationally acclaimed excessively equipped private play space. We attract the best and the brightest! The studio is located in Pittsburgh, PA and provides a pick up and drop off airport service (free of charge) on sessions of 3 hours and greater. The Compound is located in a large Victorian building. The entire 3rd floor has been converted into a 4 room play space with very distinct themes. Each room is mirrored floor to ceiling and well lit for atmospheric effect. The jail area is truly unique; the cell is built right into the wall, and there is a nice size anti-chamber surrounding it. The gothic dungeon is the best equipped in the tri state area. There is an area where my OWK memorabilia is proudly displayed (plaques, trophies, awards, flag, coat of arms, etc) a wall mounted St Andrew's Cross facing a glass block window that glows violet during sunsets. There is a recently completed Victorian punishment boudoir in the studio, which contains many custom benches, a huge four poster bed and implements by the leading manufacturers. A fortune has been spent on electrical devises, and the possibilities for suspensions are endless.

There is large scale custom built bondage furniture. I have an extremely well equipped transformation parlor with 2 strap on benches, costumes and shoes and boots of many sizes. There is new latex bondage gear, a custom suspendable leather body bag, inflatable rubber body bags, 2 leather sit slings, and a rubber vacuum bed. The studio has recently installed an autoclave and AED unit for sterilization and safety. I have a very well maintained collection of signal whips, bullwhips, and single tail whips, with enough space to practice and throw them accurately. The playrooms have an energy vortex that must be felt to be believed. It is easy to get a scene high in these rooms.

The Compound on location!

Hotel Hell "He thought he was gonna get some sex...but I had other things in mind". Extreme mummification bondage and tickling of a male's feet who is wearing pantyhose while wrapped in duct tape. Irene rips open his duct tape to reveal his cock and connects herself with a violet wand. She sits on him and tickle tortures his cock with her electric fingers! He is gagged. She uses the violet wand on his cock! She attaches electrical bands around the shaft and turns up the juice. She cuts holes in the duct tape to reveal his nipples, attaches nipple clamps, brings out nipple towers for a stretching and adds electricity! No sex for you slave...this IS your sex! Irene pumps his gag and tickles his feet. She prepares his cock for branding, and attaches the piercing calipers to his gag. Every time he moves he pulls on

his poor nipples. Irene draws where she is going to place the brand. His cock gets hard while she is doing this! Irene begins to brand him. "It smells like steak...like filet mignon".

Terror in Tokyo "He thought he was gonna get some sex, but I had other things in mind..." There is punishment for making a Mistress wait by the phone! If you like heavy CP, then this is definitely for you! I cannot believe how much I got off on terrorizing this slave for a week. I was wet to my knees. LOL Extreme CP, whipping, suspension (I brought my portable suspension unit) electric CBT (sparklers and flexible electro bands) electric dildo, electro nuero wheel, creative predicament bondage, slave hoods, slave corsetry, chopsticks on the cock (rubber band torment) inflatable gags, slave crying for mercy, piss bathing, and cock whipping. I really made him EARN the privilege of drinking a bottle of Opus 1 with me. Great electric CBT closeups!

Caned, whipped, and kicked! This was filmed at Lady Cheyenne's studio in Rhode Island. Lady Cheyenne wears a custom made rubber outfit and Irene in black leather corset with 8" high fetish boots. slave Chris is attached face down to the leaning St. Andrew's Cross in the center of Lady Cheyenne's dungeon. He is taking a caning while in nipple play predicament bondage; his nipple clamps are attached to the cross, and every time he moves from the caning he gives himself a nice painful sensation. He is placed in predicament cbt ball bondage by Irene and Cheyenne uses the lash on him. He takes the cane one more time, and then Irene begins to discipline him with her signal whip. A branding is discussed. Then Irene begins using her bullwhip. The slave is inspected

and more bullwhipping occurs. He is then moved to a kneeling suspension position, with his arms overhead. The slave is made to "present "his balls to the two Mistresses from kicking. He is moved to the large bondage frame for strap on play. He sucks Cheyenne's cock while Irene scolds and spanks him. He is reprimanded about his unkempt asshole manners. Irene spanks him, leaves him punished, and watches him as he continues to suck Cheyenne's big black cock.

The accidental gardener Scene 1: Irene Boss is visiting Mistress Shane in Antwerp Belgium. They are sitting in the courtyard outside Shane's studio on a lovely October evening making conversation. They look divine and you have just entered heaven. Suddenly, they notice that the gardener has done a very poor job maintaining the grounds. Mistress Shane is embarrassed by this. Something must be done! Irene and Shane make a 'tree' out the gardener by commanding him to hold branches between his legs and arms. Then the ladies punish the tree with their whips! The slave is then left to stand in the courtyard all night long bearing the marks from the implements. Scene 2: On the second

floor of Mistress Shane's new modern dungeon (one of the loveliest play spaces on earth) the gardener is restrained to a St. Andrew's cross for weighted CBT, and genitorture. Clothespins are whipped from his body. The ladies stretch and grab his cock and balls frequently. Scene 3: The gardener is restrained over a large spanking bench for tandem heavy paddling, flogging, dual caning, ass cropping, and single tail whipping. 4: Bonus - Watch Mistress Shane and Irene murder a pumpkin, eggs, and tomatoes, while they talk about you. All the bad qualities about slaves are discussed as they take out their aggressions in a positive way on food. This was filmed for fans of crush fetish, giantess, strong legs and verbal humiliation.

A dog's day at the North Sea MIB Productions (BossDVD.Com) traveled all the way to the North Sea to film this feature! Irene is building sandcastles near the ocean in an electric blue latex cat suit, while "alpha dog" is playing fetch with his owner Sublime Lady Amazon of OWK (Holland). Lady Amazon is attired as a strict military Guardess and makes her dog run into the cold water many times to retrieve his toys. He gets playful and decides to run through Irene's sand castle, tries to dunk her, and also buries her shoes! It is obvious that alpha dog must be punished for this behavior, so the Ladies drive him to a private dungeon. There he is caged and prodded. He is placed in suspension

bondage to be whipped, flogged and cropped. He wears an inflatable gag. He is placed in upright suspension (in a mask), wrapped in cellophane with roses (many thorns), and Irene whips the heads off the flowers. His back, chest, and torso are flogged. Lady Amazon wears shiny black PVC, and shiny black thigh high stiletto boots. Irene wears a black rubber policewoman's ensemble with black patent leather fetish platform ankle boots. Do you want to lick these boots, slave?

Inside the masochistic circus Mistress Shane's slave Kermit is bound and determined to put on a show! We begin our journey with him standing in an archway outside in the courtyard showing off for the 2 Mistresses. You will not believe how many weights he can swing from his numerous genital piercings. Kermit wears a red lingerie set, chrome collar, and high heels while he is spread in the archway. His nipples are tortured severely. He is cropped and caned on his lower stomach and cock. He is tortured with a pinwheel, and manages to have an orgasm as a result of this cruelty. Irene decides to use him as a toilet while he lies on his back on the cold cobblestones. He is unable to swallow Irene's copious shower! In the subterranean dungeon, he is restrained

with his back against the prison cell door to endure an intense genital caning. The Ladies discover that the slave has been hiding a large dildo in his ass, and he is punished extremely. A great variety of corporal implements are used, including whips. The slave is forced to fuck a bundle of thorns that the Mistresses have hammered to a pillory and mutilates himself while doing so. The grand finale sees the slave on his hands and knees, drilled by a relentless fucking machine. The Mistresses take turns flogging him and making comments until he finally explodes in a series of combustions.

The Adventures of Johnny Utah Irene and Cheyenne are angry. They flew out to Los Angeles to make a video with Bart and he has decided that he has retired because he has a new girlfriend! He volunteers Johnny Utah to be his stand in. This simply will not do! Irene and Cheyenne tackle Bart and force him to be in the video! They turn Johnny Utah into the camera man. Bart is wrestled and stripped naked, restrained, beat up with boxing

gloves, strapped to the spinning wheel, and taken for a ride. He faces serious CBT! This is guaranteed to be one of the funniest moments in BDSM comedy! The Ladies require some refreshment, so the slave "house boy" is summoned and humiliated a few times. The sarcastic comments from Johnny Utah become so obnoxious that the Ladies drag him from behind the camera! He is dominated on the pillory with severe bull whipping. His 'business' is restrained to the whipping post. He is caned and spanked over an inverted bondage table. Irene rips his underwear off with her teeth, and whips plastic clothespins off his ass. He is still wearing the marks one year later! The finale features worship of fetish shoes, lovely toes and feet along with pantyhose smothering involving the two slaves; house boy and Johnny Utah. Johnny winds up being left alone in a cold marble coffin to atone for his smart ass behavior!

The Mark of Amazon Goddess Amazon from the Other World Kingdom (Holland) arrives in Pittsburgh Pennsylvania with Her two toys and feels like playing outdoors. Irene just happens to have access to some land, so the whole crew packs off to the countryside for a few days. If you like out door play, then you will love this video! There is canine and equestrian training, whipping, flogging, suspension, caning, and lots of shots of the ladies walking around in their gorgeous boots. Back at the Compound, slave brynn must serve as a demonstration tool while Boss tries out her new electric butterfly board and takes him on a roller coaster ride with the novus system. slave alpha does some serious time in the sit sling undergoing piercing, electro play and intense tickling. Domestic discipline/role play

Chop sticks torture and domestic servitude. This production flips back and forth between dungeon play and domestic servitude. It speaks of the difference between play sessions and real service. Two slaves are chosen as demonstration tools to highlight this educational endeavor. Dungeon Play: Irene invites her friend (the devious disciplinarian) Louise D. over to share some techniques in the use of kitchen appliances as dungeon tools AKA the frugal disciplinarian. Irene wears a beautiful rubber costume and Louise is striking in a black cat suit with white corset. Slave Dave is restrained on the pillory. The Ladies work him over with the tawse, slappers and whips. Louise makes a mixture of salt and water for his wounds, and sprays rubbing alcohol on his raw ass cheeks. Louise decides to bend Dingdong over the kitchen table for a caning due to an infraction he has committed. Then Irene gives him 10 of the best. A butt plug is inserted and coffee is served. Dingdong is fitted with a remote controlled electric ball shocker and he is corrected frequently while cleaning out the oven. Lots of shoe dangling while the Ladies scold. Dave is restrained on the OBGYN table in the smother box with a giant funnel gag and must endure one of Irene's voluminous showers. Gemini uses him next.
